

# ALEKSANDER KOBYLAK

Address:

Telephone:

Date and place of birth:

**please contact [aleksander.kobylak@gmail.com](mailto:aleksander.kobylak@gmail.com)**

I'm a software engineer with 6 years of professional experience. Working in international environment and participating in various projects helped me to get know technologies and processes used in developing software. Most of projects which I participated was based on embedded systems (Embedded Linux, Windows CE) for automotive. Programming languages and technologies which I mostly used: C/C++, Python, Objective-C, C#, Unity, Xamarin Framework, Cocoa Touch, Qt, STL. Currently I'm developing own project of mobile game. I'm also interested in developing multiplatform mobile applications and professional challenges in this area (preferably remote work).

## **PROFESSIONAL SKILLS**

### **Developing software:**

- developing multiplatform mobile game,
- responsibility for creating application for iOS system,
- creating software for automotive industry and embedded systems,
- developing multiplatform (Windows, Linux, MacOS) application for handling mobile telephones

### **Work environment configuration:**

- research, selection and configuration full environment for developing multiplatform mobile game,
- selection and configuration full environment for developing embedded system,
- configuration and developing environment for continuous integration

### **Full software development cycle knowledge:**

- participation in collecting and documenting system requirements,
- cooperation in creating system architecture,
- creating project documentation in UML,
- responsibility for product maintenance (releasing new versions, bugfixing, implementing new functionalities)

### **Methodologies and software engineering processes knowledge:**

- working with following methodologies and processes: SCRUM, Agile, Waterfall, SPICE

## **PROFESSIONAL EXPERIENCE**

2014 - now	Acticity / Wrocław position: Co-founder / Software Engineer
2010 – 2014	Tieto Poland Sp.z o.o. / BrightOne Poland Sp.z o.o., Wrocław position: Software Engineer
2008 – 2010	Tieto Poland Sp.z o.o., Wrocław position: Junior Software Engineer

## **COURSES AND TRAININGS**

2011	Communication and Time Management for Software Developers, BNS IT s.c. (Michał Bartyzel), Wrocław
2009	Basic CAN-BUS training, Automatyka Sp.J./ Softing S.A. (Grzegorz Wieleba), Wrocław

## **EDUCATION**

2008 - 2010	Wroclaw University Of Technology, Faculty: Electronics Major: Electronics and telecommunication, complementary extramural master's studies
2004 - 2008	Wroclaw University Of Technology, Faculty: Electronics Major: Electronics and telecommunication, full-time BSc (Eng) course

## **ADDITIONAL SKILLS**

Foreign language: English	Advanced
Foreign language: German	Basic
Driver license	Category A, B

## **HOBBY**

Mobile marketing and technologies,

Photography,

Mountain hiking,

Snowboard
